

CODE 0.951

Coloratutto

Universal colorant

GENERAL PROPERTIES

COLORATUTTO are universal colouring pastes formulated with particular dispersants & pigments which offer an optimum compatibility and colouring power.

Thanks to the high concentration of pigment, strong colours can be realised with small quantities of colorant.

COLORATUTTO is ideal for tinting solvent based products (synthetic enamels, quick-drying enamels, nitro enamels, rust resistant products, epoxy enamels & PG7) as well as water-based products (latex paints, distemper & plastic coatings).

INSTRUCTIONS

- Shake well before opening, add COLORATUTTO to the product to be tinted & mix thoroughly.
- It is advisable not to add more than 6% of COLORATUTTO.
- Store the product at a temperature range of +5°C & +25°C.
- Wash equipment immediately after use with water.
- Two of the colours obtainable with COLORTUTTO **Giallo Vivo** 0.951.4439 & **Rosso** 0.951.5437 have limited light stability when used outdoors.
- The product is flammable. Use the products in compliance with the Health & Safety Regulations in force (transport, storage & application). Dispose of spent material/containers according to the same.

Refer to the PSDS for further information.

The data herein were correct at the time of Quality Control & refer to standardized environmental conditions. The same are to be considered as a guide.
